PROFILE

To grow in an entry-level Software Developer role by applying my technical skills and contributing to real-world software solutions.

EDUCATION

Rathinam Technical Campus – Coimbatore, <i>B.Tech Agricultural Engineering</i> CGPA - 9.34	2023 – Present
St Joseph's Girls Hr.Sec School Coimbatore, 12th - State Board Percentage - 83.33	2022 – 2023
St Joseph's Girls Hr.Sec School – Coimbatore, 10th - State Board Percentage 100	2020 – 2021

TECHNICAL SKILLS

Programming Language — Java ,C, SQL, **Web Technologies** — HTML, CSS, **Concepts** — OOPS, DSA, **Tools** — Git, Fire Base

CERTIFICATIONS

Great Learning

Fundamentals of Machine learning ,Excel.

Scaler

Fundamentals of java, Fundamentals In DSA, SQL.

ACHIEVEMENT

- Third prize -Internal GEN-Z 24 hours Hackathon-Market Price Predictor for Farmers.
- NPTEL Elite Achiever -Cloud Computing.
- Participated in Guvi's SAWIT.AI Learnathon.

PROJECTS

CAMFE - Campus Food Ordering System

- Developed a campus food-ordering app with role-based portals for students, staff, shop owners, and admins. Enabled pre-ordering, live menu & stock updates, token-based collection, queue tracking, and sales analytics to streamline cafeteria operations and improve efficiency.

Market Price predictor for farmers

- Developed a full-stack, ML-based web application to predict crop market prices and provide sell/hold/wait recommendations for farmers. Implemented logic-based machine learning using JavaScript to analyze price trends. Visualized data insights using Chart.js for better decision-making. Integrated Firebase for user authentication and real-time data storage.

Personal Portfolio Website

- Created my own portfolio website showcasing About, Skills, Projects, and Contact enabling users to view professional information and project work through an interactive and visually appealing interface using HTML, CSS.

INTERNSHIP AND TRAINING

Java Programming, CodeSoft

05/09/2025 – 05/10/2025

Worked on Java-based applications, applying OOP concepts and enhancing functionality. Performed debugging and optimized code for better performance. Gained hands-on experience in Java, data structures, and collaborative development.

Web Development, InternBoot

15/09/2025 – 30/10/2025

Gained hands-on knowledge in HTML, CSS, JavaScript, responsive web design, front-end development, basic back-end integration, and practical exposure to industry-standard web development practices.
